A5. Degree Offerings in Schools of Public Health

A school of public health offers a professional public health master’s degree (e.g., MPH) in at least three distinct concentrations (as defined by competencies in Criterion D4) and public health doctoral degree programs (academic or professional) in at least two concentrations (as defined by competencies in Criterion D4). A school may offer more degrees or concentrations at either degree level.

1) Affirm that the school offers professional public health master’s degree concentrations in at least three areas and public health doctoral degree programs of study in at least two areas. Template Intro-1 may be referenced for this purpose.

The college offers the MPH degree in six distinct concentration areas: Biostatistics, Environmental Health, Epidemiology, Population Health Management, Public Health Practice and Social and Behavioral Sciences.

In addition, the college offers:

- The PhD in Public Health degree with four distinct concentration areas: Environmental Health, Health Services Research, One Health and Social and Behavioral Sciences
- The PhD in Biostatistics degree
- The PhD in Epidemiology degree
- The MS in Biostatistics degree
- The MS in Epidemiology degree

2) An official catalog or bulletin that lists the degrees offered by the school.

Graduate degrees offered by the school are listed in the UF Graduate Catalog.
