### Exam Policy

#### Policy Related to Make up Exams or Other Work

Any requests for make-ups due to any issues, you MUST e-mail me within 24 hours of the technical difficulty if you wish to request a make-up.

### Late Submissions

**Late assignments:** Assignments turned in up to 24 hours late will be deducted 1 point of the grade they would otherwise receive. Assignments turned in more than 24 hours late will be discounted at an additional 1 point per day, unless arrangements have been made in advance with the instructor. Please note:

assignments turned in at 4:59:01PM are LATE, the computer counts on-time submission up to 4:59:00PM, so do not wait until 4:54 or later to submit an assignment unless you understand that your assignment may be marked late. It is the responsibility of students to open your submission and verify not only that an assignment was submitted, but that an attachment was made and was the correct attachment.

**Missed Assignments:** Missed assignments and discussion posts will contribute zero points toward your final grade.

**Special Circumstances:** In the event of exceptional situations that may interfere with your ability to perform an assignment or meet a deadline, contact the instructor as soon in advance of the deadline as possible. Such special cases will be dealt on an individual basis, provided you have sufficient documentation. It may be possible to avoid a late penalty if you contact the instructor at least 24 hours in advance. You should email both the instructor and the TA, and explain what issue (e.g., bereavement, illness) necessitates lateness. In some cases, documentation may be requested. If a lateness allowance is agreed to, this applies to a single assignment only. It does not allow you to delay future assignments.

### **Policy Related to Required Class Attendance**

Attendance is required. Students must notify the instructor via email about upcoming absences, late arrival or early leave as soon as they become aware of potential conflicts prior to the class. If you miss the class without notification or you provide unacceptable excuse, your attendance cannot be marked. Late arrival or early leave will be marked "Late attendance". Staying for less than 30 minutes in the class without notification will be marked as "Absence". The following are not acceptable excuses for missing class: **WORK, VOLUNTEER POSITION, PERSONAL TRAVLE/VACATION. Job interviews are acceptable if approved by the instructor prior to the class.**

Excused absences must be consistent with university policies in the Graduate Catalog (<https://catalog.ufl.edu/graduate/regulations/#text>). Additional information can be found here: <https://catalog.ufl.edu/ugrad/current/regulations/info/attendance.aspx>.

### **Policy Related to Guests Attending Class:**

Only registered students are permitted to attend class. However, we recognize that students who are caretakers may face occasional unexpected challenges creating attendance barriers. Therefore, by exception, a department chair or his or her designee (e.g., instructors) may grant a student permission to bring a guest(s) for a total of two class sessions per semester. This is two sessions total across all courses. No further extensions will be granted. Please note that guests are not permitted to attend either cadaver or wet labs. Students are responsible for course material regardless of attendance. For additional information, please review the Classroom Guests of Students policy in its entirety. Link to full policy: <http://facstaff.phttp.ufl.edu/services/resourceguide/getstarted.htm>

### **Professionalism and Student Expectations**

Since "Professionalism" is a hallmark of patient and population care, and central to the mission of the College of Public Health and Health Professions, it will be assessed in this course. Students are expected to demonstrate personal accountability and effective work habits (e.g., punctuality, working productively with others, and time workload management) and integrity and ethical behavior. Student demeanor and observable behavior are central components to assessing one's professionalism and will therefore need to be observed and occasionally recorded within this class. To facilitate a proper evaluation of professionalism in online sessions, Zoom synchronous sessions may be audio-visually recorded and students will be asked to keep their cameras on during class. Failure to turn on the camera could result in the student not receiving a professionalism score.

Students are expected to arrive for class on time, and be prepared and ready to participate in class discussions. You must come to class prepared by completing all out-of-class assignments. This preparation gives you the knowledge or practice needed to engage in higher levels of learning during the live class sessions. If you are not prepared for the face-to-face sessions, you may struggle to keep pace with the

activities occurring in the live sessions, and it is unlikely that you will reach the higher learning goals of the course. Students are required to silence all cell phones and close all laptop computers during class unless they are to be used to support directed class activities.

**For guest lecture, any electronic devices such as cell phones and laptops are NOT allowed to use even though it supports learning.** If note-taking is needed, you should use paper and pencil.

Students are expected to actively engage in the course throughout the semester. Participation fosters a rich course experience for you and your peers that facilitates overall mastery of the course objectives.

### **Inclusive Learning Environment**

Public health and health professions are based on the belief in human dignity and on respect for the individual. As we share our personal beliefs inside or outside of the classroom, it is always with the understanding that we value and respect diversity of background, experience, and opinion, where every individual feels valued. We believe in, and promote, openness and tolerance of differences in ethnicity and culture, and we respect differing personal, spiritual, religious and political values. We further believe that celebrating such diversity enriches the quality of the educational experiences we provide our students and enhances our own personal and professional relationships. We embrace The University of Florida's Non-Discrimination Policy, which reads, "The University shall actively promote equal opportunity policies and practices conforming to laws against discrimination. The University is committed to non-discrimination with respect to race, creed, color, religion, age, disability, sex, sexual orientation, gender identity and expression, marital status, national origin, political opinions or affiliations, genetic information and veteran status as protected under the Vietnam Era Veterans' Readjustment Assistance Act."
